There has been an increase in pharmacy drug coverage limitations on formulary medication. This is your insurance plan and West Coast Eye Care doesn't know which plan you have or which drugs are available on your formulary. We would recommend you bring **a list of covered eye medications** to your doctor visit. Whenever possible we will try to adhere to their formulary but we need to prescribe the best medicine available to treat your condition. It is your responsibility to obtain the medications and delay can cause significant health problems.
